PROJECTS

[Cloud-Share \(Full-Stack File-Sharing Platform\) ↗](#)

Aug 2025 - Sep 2025

- Built a full-stack web application for secure file sharing with separate backend and frontend modules.
- Developed the backend in Java (Spring Boot) to manage file storage, retrieval, and RESTful APIs.
- Designed the frontend in JavaScript (React) with Clerk authentication for user sign-up/login and secure access.
- Integrated Razorpay Payment Gateway to enable premium features and seamless online transactions.

Tech Stack: Java (Spring Boot), React (JavaScript), Clerk Auth, Razorpay, REST APIs, MySQL

[QuickCourt ↗](#)

Aug 2025

- Built a full-stack sports facility booking system with Spring Boot (Gradle) backend and React frontend
- Implemented secure user authentication using JWT for rolebased access
- Designed booking system with time slots, and review module
- Developed admin dashboard for managing facilities, users, and bookings
- Technologies: Spring Boot, React, MySQL, JWT, Docker

[Voice-Based Patient Intake Agent ↗](#)

Jun 2025 - Aug 2025

- Developed an AI voice agent to collect patient data through natural multilingual conversations
- Built dynamic conversation flows using LangGraph and integrated ChromaDB for memory management
- Created a RESTful backend with Spring Boot and persisted data using MySQL
- Technologies: LangGraph, Spring Boot, MySQL, ChromaDB

SKILLS

- | | | |
|-------------------|--------------------|---------------|
| • REST API | • Java | • Spring Boot |
| • Spring Data JPA | • Spring Framework | • Spring MVC |
| • C++ Programming | • React | • Postman |
| • Docker | • MySQL | • MongoDB |

EXTRA CURRICULAR ACTIVITIES

- Finalist in Odoo Hackathon (out of 19,000+ participants)
- Finalist Vadodara Hackathon 5.0 (Top 45 out of 400+ teams)
- Developed a sign language translation app PU Code Hackathon 2.0
- Built an AI-powered, voice-based patient intake system — MyInsite Healthcare Hackathon 2025
